

Pro-Fusion

with ImmuTek+

107557679

The composition of milk has not changed, yet the performance expectations of our calves have increased. **Cargill's Pro-Fusion** whole milk supplement enhances the milk you produce on your farm to meet the growing demands of your calves.

Why feed Pro-Fusion?

- Contains Cargill's proprietary ImmuTek+*.
- Balances milk solids, specifically providing more amino acids to encourage lean tissue growth and help increase daily gain.
- Provides supplemental vitamins and trace minerals essential for accelerated calf development & calf health.

*ImmuTek+ provides all the benefits of SmartCare plus natural plant-based additives to prevent coccidiosis and cryptosporidium challenges in calves, for overall improved ADG and reduced health events.

Pro-Fusion by Cargill. Your **Whole Milk supplement solution**

Take advantage of this period of highest feed efficiency by optimizing cost of gain - the future of your herd depends on it.

Build your herd and legacy by using your own milk with Pro-Fusion.

- Gain up to 20% more weight by 60 days
- Reduce morbidity
- Improve feed efficiency

Canadian Dairy Producer's Feeding Pro-Fusion Say:

- "Since the introduction of Pro-Fusion, calves have shown more vigor in early life with fewer signs of respiratory challenges"
- "Calves have required less intervention for scours and are larger and stronger at time of weaning"
- "I like that this product contains the extra additives that can be found in milk replacer, while still allowing me to use my own whole milk"

	ADG 8 weeks	ADG 12 weeks
Control	0.754 kg/d	0.778 kg/d
PRO-FUSION	0.914 kg/d	0.941 kg/d
	+0.160 kg/d	+0.163 kg/d

	# of calves treated (0 - 70 d)	Scour treatment	Pneumonia treatment

PRO-FUSION	12%	50%	50%
	45% fewer health events		

Make the BEST milk

Optimal protein: fat ratio • Completely balanced milk • Optimal growth rates • Reduced risk of health events

This feed contains added Selenium at 0.3 mg/kg

GUARANTEED ANALYSIS

Crude Protein	min.	28.0%
Crude Fat	min.	3.0%
Calcium (Ca)	actual	1.05%
Phosphorus (P)	actual	0.80%
Sodium (Na)	actual	2.00%
Zinc (Zn)	actual	50.0 mg/kg
Iron (Fe)	actual	100.0 mg/kg
Iodine (I)	actual	1.0 mg/kg
Vitamin A	min.	77,000 I.U./kg
Vitamin D ₃	min.	16,500 I.U./kg
Vitamin E	min.	330 I.U./kg

Feeding Directions:

Feed 25 g of Pro-Fusion per liter of milk consumed per calf per day.

- Add Pro-Fusion directly to warm milk (minimum of 39°C) and stir until dissolved.
- Alternatively, mix Pro-Fusion into a small amount of hot water (39°C to 45°C) first, and then add to whole milk. A mixing rate of 25 g of Pro-Fusion / 100 ml (or less) of hot water is recommended.

Storage Recommendation:

Pro-Fusion is packaged in a 20 kg bag. To preserve freshness and product quality, carefully ensure bag is tightly closed after each use. Store in a cool, dry place.
